

Spray Marks will establish policies, programmes and practices to reduce risk to the environment and the organisation and conduct business activities in such a manner to protect the environment.

Spray Marks is committed to environmental management and will:

- Integrate its environmental policies and procedures fully into all business activities as a critical element
- Comply with all environmental legislation, standards and contract requirements that are applicable to the company's operation
- Establish objectives and continually improve its environmental performance and impact on the environment, taking into account current best practice, technological advances, current scientific understanding, customer and community needs
- Promote environmental responsibility through ongoing education and training, ensuring that all employees understand their role in protecting the environment
- Complete environmental assessments for risks and opportunities of all new activities and construction activities that the company may undertake
- Develop and design services, facilities, equipment and work practices that have the least environmental impact, taking into account the efficient use of energy and materials, the sustainable use of renewable resources and the responsible disposal of waste, thereby minimising any serious or irreversible environmental degradation
- Promote and encourage the adoption of these principles by suppliers and contractors acting on behalf of the organisation
- Develop, implement and maintain emergency preparedness plans
- Foster openness and dialogue with both employees and the public, encouraging them to respond with their concerns or improvement ideas within the scope of the organisation's operations and maintain a set of environmental objectives and targets that are monitored through the management review process to ensure effectiveness.
- Maintain an environmental management system conforming to ISO 14001:2015 standards and certification.
